

Blue Box Recycling

Everyone is familiar with the household blue box recycling program for paper and plastics but here is blue box recycling with a twist. Instead of plastics and paper, these blue boxes are clothing recycling bins.

This is a fund raising initiative for Deaf Children's Society as well as three other lower mainland charities that provide services for children and their families.

The next time you are cleaning out your closet and have unwanted clothing, remember the blue box and drop your clothes off at one of these bins. You can recognize the bins by their blue colour and our logo on the box.

Thank you for your support!
